

PURE WATER FAUCET WITH LED

For an elegant accent in your kitchen, add the Bluewater Pure Water Faucet with LED Light to your reverse osmosis or SuperiorOsmosis™ water purification systems.

BLUEWATER PURE WATER FAUCET WITH LED LIGHT

INSTANT FEEDBACK ON WATER QUALITY

Always know when your water is safe to drink with instant visual feedback. The integrated LED indicator at the base of the faucet shines blue when your water is purified and safe to drink. A solid orange LED means your water is being purified (TDS levels too high). A pulsating orange LED means it's time to replace the filter on your Bluewater water purifier.

COMPATIBLE WITH SUPERIOROSMOSIS™ AND REVERSE OSMOSIS WATER PURIFIERS

Purified water flows directly from your kitchen sink through a single high-quality, food-grade, lead-free stainless steel faucet. Unlike other reverse-osmosis faucets made of brass and low-grade stainless steel, there's minimal risk of metals that cause health effects leaching into your water.

EASY TO INSTALL AND EASY TO USE

Minimalist Scandinavian design with 360° swivel spout and ceramic disc valves ensure long service lifetime and superior performance with high volumes of water flowing directly from your faucet.

PRODUCT

Product number 919240946
Installation Single-hole deck mount

FEATURES

- Real-time sensor with LED indicator for instant feedback on status of pure water and filter replacement
- Adjustable flow rate
- 360° swivel faucet made of food-grade, corrosion-resistant stainless steel
- Reverse Osmosis and SuperiorOsmosis™ compatible
- Quarter-turn durable handle

DIMENSION WxDxH

Product 160xXx370 mm/XxXxX inch

WATER PURIFIER

Fits all Bluewater water purifiers, Cleone, Spirit and PRO.
