

Qlima

MONOBLOCK HEATPUMP/AC

GIVES YOU A COMFORTABLE FEELING AT HOME ALL YEAR ROUND

A real
Heatpump
without an
outside unit

Qlima Monoblock 2022

Qlima has a leading position in Europe where aircondition and heaters are concerned. We have more than 35 years experience of climate products for indoor use. Over 20 million Qlima products have been sold over the years in Europe. Now we introduce the Qlima Monoblock Heatpump.

Advantages of Qlima Monoblock

A new effective Heatpump without a space consuming outdoor unit. 2 holes in the wall and a small hole for the drainage tube is everything needed. Very easy to install and without the need for a certified installer. Provides comfortable warmth in the winter and wonderful cold in the summer. Easy to use via app on the phone
